Buldhana, Maharashtra, India | B.Tech CSE '27

EDUCATION

Vidya Pratishthan's College of Engineering, Baramati <i>Bachelor of Technology in Computer Engineering; CGPA: 8.68/10</i>	Baramati, Maharashtra Sep 2024 – Dec 2027
Government Polytechnic College Jalgaon <i>Diploma in Information Technology Engineering; Percentage: 85.88%</i>	Jalgaon, Maharashtra Nov 2021 – Jan 2024

TECHNICAL SKILLS

Languages: JavaScript, Java, C, Python
Frameworks & Libraries: React.js, Node.js, Express.js, MongoDB, MySQL, RESTful APIs
Developer Tools: Git, GitHub, Postman,
Technologies: (MERN) Full-Stack Development, Database Management (RDBMS), AI/ML Basics

EXPERIENCE

JUNIOR INTERN DEVELOPER <i>CloudRegex Infotech Pvt Ltd</i> - Assisted in software development, debugging, testing, and documentation while collaborating with the team on real-world projects , - Contributed to application development, gaining hands-on experience and strengthening problem-solving skills	Feb 2026 Baramati, Maharashtra
MERN Stack Web Development Intern <i>Codtech It Solutions Pvt. Ltd</i> - Contributed to the development of full-stack web applications using MongoDB, Express.js, React.js, and Node.js, including building responsive UIs and RESTful APIs - Gained hands-on experience in database integration, debugging, and version control (Git/GitHub) while collaborating with teams on real-world projects	Jan 2026 – Feb 2026 (remote) Hyderabad
Full Stack Developer Intern <i>Smart Pacey Official</i> - Developed web applications using HTML, CSS, JavaScript, and Python (Flask) with database integration - Built backend APIs, designed responsive UI, and optimized performance through debugging and testing	June 2023 – July 2023 Aurangabad, Maharashtra

PROJECTS

Electric Vehicle Charging Station Finder & Slot Booking <i>MERN Stack, Google Maps API, JWT</i> - Built a full-stack web platform enabling users to locate EV charging stations and book time slots in real-time - Implemented secure user authentication with JWT and integrated Google Maps API for location-based services - Developed RESTful APIs with Node.js and Express.js, managing bookings and station data in MongoDB	2026
Zerodha Application Clone <i>React, Node.js, MongoDB, Express.js</i> - Recreated a functional stock trading platform with real-time portfolio management and trading features - Implemented user authentication, dashboard analytics, and order management system with MERN stack - Designed responsive UI components with React.js ensuring seamless user experience across devices	2025
Team Chat Collaborator (MoGify AI) <i>MERN + Python, TensorFlow, NLP, Speech Recognition</i> - Developed a collaborative AI-powered workspace using the MERN stack for real-time team interaction - Enabled seamless chat, coding, and task collaboration with integrated AI features - Implemented responsive UI, RESTful APIs, and efficient data management for smooth performance	2025
Pre-Paperized Web App & Education Platform (CPL) <i>MERN Stack, RESTful APIs</i> - Built educational web applications with features for content management, user progress tracking, and assessments - Developed scalable backend architecture handling concurrent users and real-time data synchronization	2024

ACHIEVEMENTS & CERTIFICATIONS

Certifications: Microsoft Transact-SQL, Tata Cybersecurity Job Simulation, Deloitte Data Analytics, GitHub Advanced Security, AI Bootcamp
Projects Portfolio: 15+ full-stack projects including e-commerce clones (Spotify, Amazon, Netflix), restaurant websites, and portfolio sites
Technical Skills: Strong foundation in DSA, algorithms, and problem-solving with competitive programming experience
